

Snapshotのリストア処理中にプライベートinodeでWAFLのユーザーデータブロックに一貫性がない

https://kb-ja.netapp.com/on-prem/ontap/dm/FabricPool/FabricPool-KBs/WAFL_inconsistent_user_data...

Updated: Tue, 04 Nov 2025 07:50:08 GMT

環境

- ONTAP 9
- FabricPool
- Snapshot 数

問題

- お客様からの計画的なSnapshotリストア処理中に、ASUPケースが複数のWAFL不整合ESMメッセージでオープンしました。
- 一部のボリュームで不整合が報告されます。

```
Fri Feb 14 17:23:59 -0600 [A700-00: wafl_exempt11: wafl.incons.  
userdata.vol:alert]: WAFL inconsistent: volume <>@vserver:<> has an
```

inconsistent user data block. Note: Any new Snapshot copies might contain this inconsistency. Fri Feb 14 17:23:59 -0600 [A700-00: wafl_exempt11: callhome.wafl.inconsistent.user.block:alert]: Call home for WAFL INCONSISTENT USER BLOCK Fri Feb 14 17:23:59 -0600 [A700-00: wafl_exempt11: wafl.raid.incons.set.error:alert]: Data block in private inode (fileid: 0000 snapid: 0 fbn: 524926014 level: 0) in volume <> marked with error (121) by Tiering Promotion Scanner. Block previously had error (121). Fri Feb 14 17:23:59 -0600 [A700-00: wafl_exempt11: wafl.raid.incons.userdata:error]: WAFL inconsistent: inconsistent user data block at VBN 000000000000 (vvbn:00000 fbn:0000 level:0) in private inode (fileid:container snapid:0 file_type:6 disk_flags:0xc10000800800143 error:121 raid_set:1) in volume <>@vserver:<>.
