### 環境

- ONTAP tools for VMware vSphere
- VASA プロバイダ

## 問題

vVols データストアの作成が次のエラーで失敗します：

```
"vSphere HA failed to create a configuration vVol for this datastore and so  
will not be able to protect virtual machines on the datastore until the problem  
is resolved. Error: Operation failed, diagnostics report: .vSphere-HA (Cannot  
Create File) "
```
