環境

- AFF A400
- ONTAP 9

問題

システムでギブバックが失敗し、次のエラーが表示される。

```
cluster1::> storage failover giveback -ofnode node1
```

Error: command failed: Failed to initiate giveback. Reason: HA partner RAID or WAFL label versions are older than this node's labels.

Run the "system node image show" command to determine which image on the partner should be booted to be compatible with the local node. Firmware update complete. System rebooting...
