ONTAP Tools for VMware vSphere : OTV ストレージシステムリストからシステムを削除できません

https://kb-jp.netapp.com/data-mgmt/OTV/VSC_Kbs/ONTAP_Tools_for_VMware_vSphere__Unable_to...

Updated: Mon, 21 Sep 2026 18:55:54 GMT

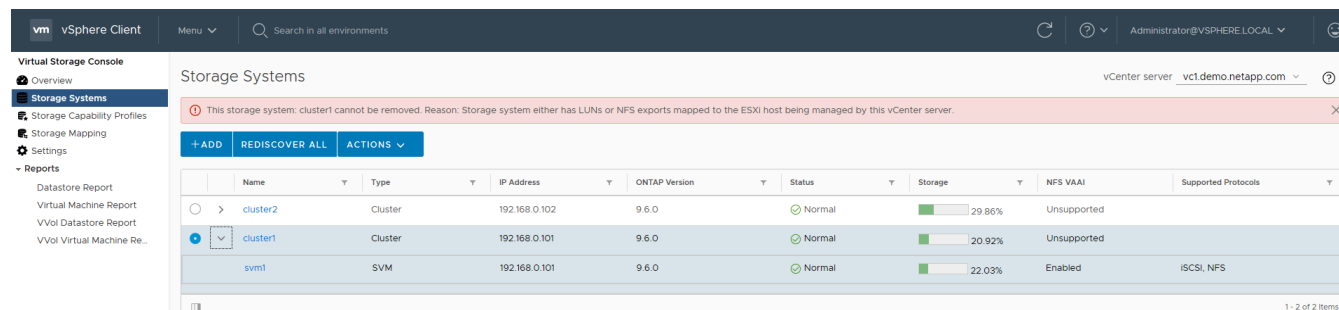

環境

- Virtual Storage Console (VSC) 7.x
- Virtual Storage Console (VSC) 9.x
- ONTAP Tools for VMware (OTV) 9.x

問題

OTV または VSC 内のストレージシステムリストからクラスターまたは **vserver** を削除しようとする、次のエラーが発生して失敗する場合があります：

This storage system: XXX cannot be removed. Reason: Storage system either has LUNs or NFS exports mapped to the ESXi host being managed by this vcenter server.

The screenshot shows the vSphere Client interface. The left sidebar contains the 'Virtual Storage Console' menu with options like Overview, Storage Systems, Storage Capability Profiles, Storage Mapping, Settings, and Reports. The main panel is titled 'Storage Systems' and displays a table of storage systems. A red error banner at the top states: 'This storage system: cluster1 cannot be removed. Reason: Storage system either has LUNs or NFS exports mapped to the ESXi host being managed by this vCenter server.' The table lists three storage systems: cluster2, cluster1, and svm1. cluster1 is highlighted with a blue selection bar.

	Name	Type	IP Address	ONTAP Version	Status	Storage	NFS VAAI	Supported Protocols
	cluster2	Cluster	192.168.0.102	9.6.0	Normal	29.86%	Unsupported	
	cluster1	Cluster	192.168.0.101	9.6.0	Normal	20.92%	Unsupported	
	svm1	SVM	192.168.0.101	9.6.0	Normal	22.03%	Enabled	iSCSI, NFS
